

CONWAY CAMPING

Conway Trailer Tents, definitely not for campers who like to rough it.

CONWAY

trailer tents with all the advantages

"Conway is a British company who have built their reputation on a world-wide platform. The most discerning campers in Europe and America use Conway products because their trailers have more thought and more pre-production planning put into them than most others. Design requirements to cater for the camper in the 80's are considered by the Conway team. Craftsmen are employed to make the best use of modern ideas and materials from Europe. Then hand-produced prototypes are given the sort of treatment you would never envisage.

Used by campers. Towed for thousands of miles. Backed through gates and narrow gaps time after time. Bounced along unmade roads. Hammered on motorways and then carefully taken apart to see how Conway craftsmanship coped with the wear and the tear.

Their engineers examine the chassis and the suspension. They look at spots where canvas has been rubbing on metal. Where hinges have been flexed. Beds bounced on and zips pulled. They read and check their consumer reports. They listen to the views of dozens of users.

And only now does the most modern custom-built trailer tent production unit in Britain get into full swing. Craftsmen who have years of experience building trailers and chassis, integrate the allied skills of component suppliers from other top European factories. Where they use an over-run braking system, it is the best they can buy.....the suspension is chosen for quality rather than looks.....steel panels and timber cut carefully to critical dimensions.

And the canvas.....some of the best there is in Europe. Fashioned with skill, in colourful and rot proofed cotton, it gives Conway trailer tents a distinctive appearance. Even in delivery, Conway take extra care using container loads designed to eliminate loss or damage on the way.

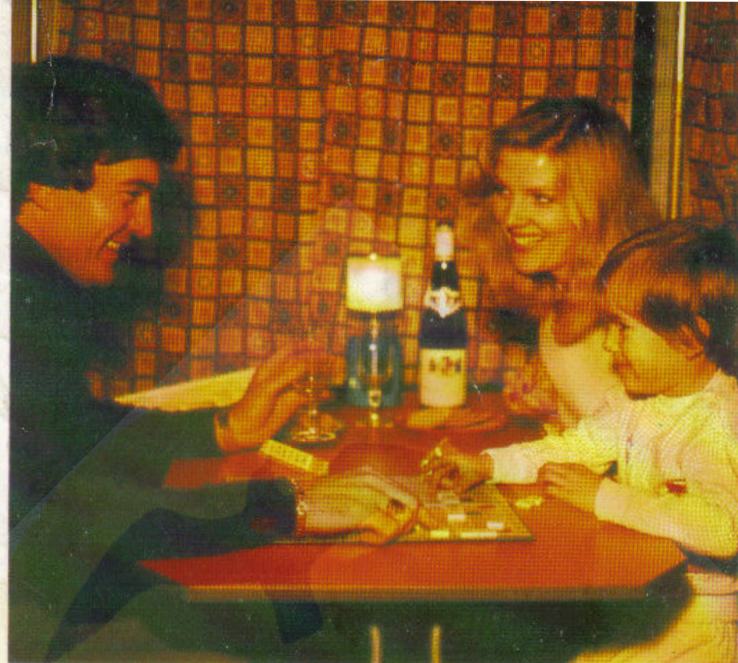

Every Conway dealer has the backing of their after-sales service so that if you have a problem you get immediate help.

Conway isn't the best known name in trailer tents for nothing.....it took effort and know-how. In my opinion you can have confidence in a Conway product."

Trailer tents are for leisure and pleasure. Add the name 'Conway' and the result is luxurious quality to make all your outdoor leisure a pleasure for many years to come.

Conway bother about the big features first. That the small items are not forgotten needs no emphasis, but fabrics, style, comfort and reliability are the hallmarks of Conway quality. Constant research and development have given the range an enviable air of ease - in towing and ease in setting-up. Look for the envious glances of other campers as your Conway Trailer Tent goes up in only a few minutes or packs away just as quickly.

Own a Conway unit and you won't have to strip your home before you go. The unique kitchen unit, the deep comfort of high-density foam mattresses, the fully-enclosed inner tents, storage units and carpeted floor mean that you only need food, pots and pans, clothing and sleeping bags to be off for the weekend, the week or the month.

The final test of quality is longevity. How long will your Conway trailer last? To be truthful we don't know because we believe that the first one is still going strong. The chassis and body-framing are finished in an oven-baked epoxy resin and the body is constructed throughout in steel laminated with vinyl. A tough p.v.c. coated nylon cover protects when in transit; high speed wheels and independent, rubber-damped suspension complete the specification.

Conway quality is toughness in a sleek package.

Unique design qualities give you home comforts wherever you go.

Our photographer summed up the usual reaction to the integral kitchen unit. "What a great idea," he said and continued "That really does complete the package."

The kitchen is fully assembled, compact and ready to use once the gas bottle is connected. Features include a double burner stove with grill, a stainless steel sink and drainer, two drawers and ample storage space for food and crockery. All wearing surfaces are faced with easy-clean vinyl.

Total versatility offers use on or off the trailer, in the tent or al fresco at the roadside. The cook can cope with poached eggs or Boeuf Bourguignonne to your taste. The package is indeed complete.

Conway Trailers are founder members of the 'tidy car association'. All your personal and camping gear will fit into the trailer, add further space for food and utensils in the kitchen unit and there's still room under the transit cover for last-minute items.

And you get full marks for a comfortable journey.

Security

Outdoor leisure products are often the prey for thieves. Our optional security lock prevents the tow hitch from being attached until activated by the special key.

Fast Change

Just as logical as the spare wheel for your car, this optional trailer spare offers peace of mind as a bonus.

The CONWAY 'Corniche'

The Conway Corniche

It is easy to offer you all the superlatives for this trailer tent – justifiably the top of our range – but we suggest that you should take a look for yourself at the comfort, luxury and sheer extravagance of the specification.

Take space for example – and there's plenty to take. Overall dimensions are 5.80 metres x 4.50 metres including the standard extension and sun canopy. If you take up the option of an underbed inner tent, then the Corniche will sleep seven people comfortably. The kitchen unit and the wardrobe occupy an area of their own without intrusion into the living space; and the youngsters will positively enjoy keeping their playthings tidily in the storage cupboards which also double-up as dining seats on either side of the integral table.

Inner tents, roof linings and curtains at all the windows lend light and cheerful colour to the interior, whilst the exterior is an ecological blend of beige and russet fabrics.

Conway Corniche Optional Extras:

- *Spare wheel and cover
- *Hydraulic over-run brakes
- *Backrests
- *Storage brackets
- *Underbed inner tent (2 persons)
- *Hitch lock and keys

The CONWAY 'Capri'

The Conway Capri

Based on our successful 'Popular' model, the Capri is the ideal unit for two people or the small family.

The complete 1980 specification doesn't skimp on the luxury touches. Inner tent, extension with roof lining, cupboards, seat cushions, backrest, table and floral window curtains add up to a package that is as total as the others in the Conway range. As a compact and easy to handle trailer, the spacious Capri makes a superb tent.

Much of its appeal lies in versatility. For an overnight stop erect the main cabin in a mere 3 or 4 minutes. Decided to stay? Then just add the extension for a genuine home from home.

Should you have guests or a couple of youngsters, just clip the optional under bed tent into place and you have a four-berth unit with space for all.

Conway Capri Optional Extras:

- *Spare wheel and cover
- *Underbed inner tent
- *Storage brackets

- *Hydraulic over-run brakes
- *Hitch lock and key
- *Sun canopy
