ALL THIS AND A LITTLE BIT MORE

Towing is simple with a Conway Trailer Tent. All Conway units fold down into a lightweight compact trailer that is narrower than the average family car and allows excellent rear view vision.

Designed to cope easily with the varying road conditions found in Europe, sturdy 145 x 10" radial tyres give maximum stability on the road. And for that extra peace of mind, a spare wheel is standard, whilst on site manoeuvrability has never been easier with the addition of the Jockey wheel on each model.

Even en route you can make use of your Conway Trailer Tent with the easily accessible kitchen unit, ideal for those unplanned or spontaneous stops.

The Conway carry rack enables you to take your hobby with you, whether cycling, sailing or windsurfing.

Folding Away

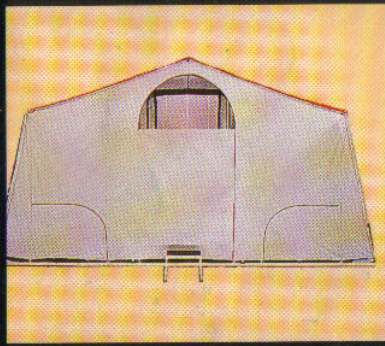

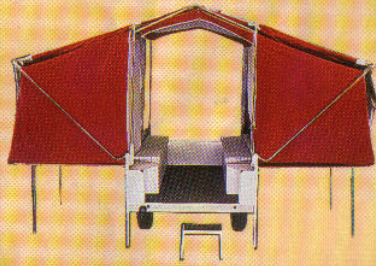

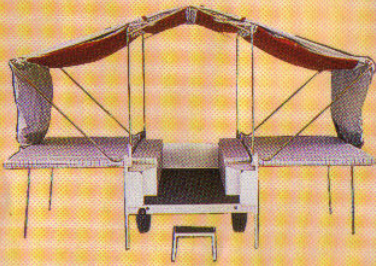

The unpredictability of the prevailing climate is no longer a threat to dry, comfortable accommodation.

Almost certainly though, you may wish to include a few little extras of your own to add that personal touch to your Trailer Tent. Conway's range of Trailer Tent Accessories are designed to meet your every need, making your Conway even more enjoyable.
