

Freedom For Life

Join the Winning Team

Have you ever wondered why Conways made many years previously still look to be the "The Best" tents on the site?

The reasons are simple:

Conway use the best canvas money can buy. We are the only manufacturer to use this particular type of canvas .The quality and durability of its weave ensure its performance and quality appearance for years to come. Each Conway canvas is cut to exacting standards thus eliminating the need for complex frame adjustment points enabling you to erect the unit as quickly and easily as possible.

We design and produce our own chassis. Using the latest computer assisted technology means that we can be sure that our trailers are amongst the safest and easiest to tow on the market today.

We use top quality materials to match your expectations of a unit that will give you many trouble free years of use when you purchase a Conway.

With over 30 years experience it is our belief that complacency is the enemy. Constant assessment and feedback from owners and employees alike enable us to continue our development programme and produce the finest products available today.

We are often imitated but never bettered!

Share with us the Conway experience and enjoy FREEDOM FOR LIFE.

Special thanks to Bartle Hall Hotel, Preston and Kilhey Court Hotel, Standish.

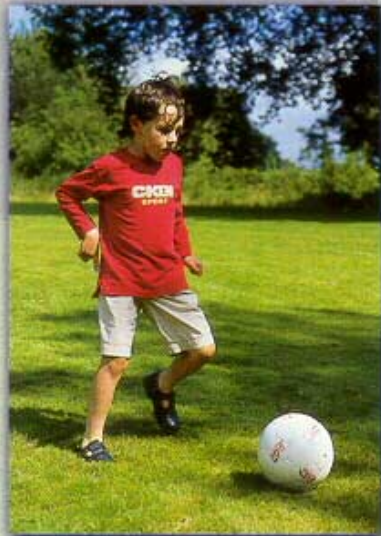

Why Conway is No1 in the UK

Trailer Tents

Our special bed folding system means that the interior of the trailer remains perfectly dry even if you have been unlucky with the weather and have to fold down a damp canvas.

- The covers on our seats and mattresses are removable for easy cleaning.
- The roof liners in both living and cabin areas are designed to trap a layer of air which will keep you warmer at night and cooler through the day.
- The interior mud flap has been designed to fold inwards enabling rain water to run easily off the canvas walls and drain away. It is so strong that you can peg your groundsheet down through it thus virtually eliminating drafts.
- Little things count...every Conway comes complete with everything you need to begin your holiday even down to a step stool and a mallet.
- Every Conway has built in storage lockers.

- Every Conway has a high p.v.c mud wall so that splashes of mud can be easily cleaned off with a damp cloth.
- The Conway kitchen is synonymous with quality and leads the field for its functional durability.

Folding Campers

The difference between a trailer tent and a folding camper is that a folder is quicker to erect than a trailer tent and there is no pegging involved and is therefore ideal to use for a weekend or simply an overnight stop.

- We regard safety as paramount and have designed all our kitchens so that you never need to disconnect a gas pipe when you want to pack your unit down. This saves time and removes the risk of any gas leaks.
- All Conways are easy to tow and have their wheels "in-board". This makes life easier when towing for you to accurately gauge clearances when manoeuvring in confined spaces.
- The taps in all of our folders are operated by hand, as opposed to a foot switch that can be trodden on accidentally.
- We use an automatic braking system on all our folding campers which works in harmony with your vehicle's brakes to ensure a smooth deceleration and a safe stop.
- All of our folders have wind down corner steadies for increased stability and ease of use.
- An underslung spare wheel is included with each model as standard.
- An electric water pump effortlessly supplies your water requirements.
- Each folding camper has its own built in 12volt wiring circuit with easily accessible sockets.
- All units with built in fridges are capable of running on 12volts, mains or gas.
- A table is supplied with all units
- Buying a Conway will give you freedom for life: the freedom to take the kind of holiday you want, where you want and when you want.

Freedom For Life

The Voyager

A compact trailer with a revolutionary design

Trailer Tents

Why buy a separate trailer and frame tent? Buy a Voyager and enjoy a nights sleep off the ground in comfort without the hassle of blowing up an airbed.

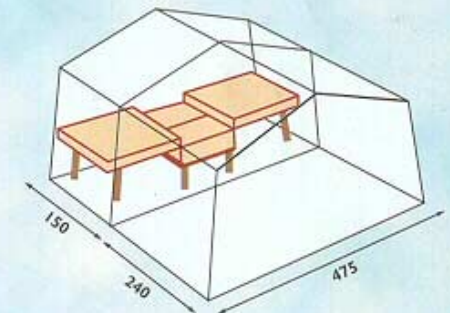

The generous living area easily accommodates a table and chairs. An integral wardrobe is provided for "crease-free" clothes and additional items may be placed in the built in storage area under the floor. The front and sidewalls may be rolled up in a variety of configurations for extra ventilation and versatility.

The Voyager, measuring an incredible 140cm x 115cm (4'7" x 3'9") is effortless to tow, even for the smallest of cars and is easy to store when not in use.

The optional sun canopy enables you to enjoy a meal "Al Fresco" or simply a late afternoon drink whilst you watch the world go by!

Supplied as standard with:

Transverse beds, removable mattress covers, ventilated inner tents, reinforced mud flaps, high mud wall, 4.75m wide awning and roof linings.

The Continental

An inexpensive trailer tent with proven Conway quality

Trailer Tents

The Continental's cabin and awning roofs are made from heavy-duty canvas and the one piece construction makes it simple to erect.

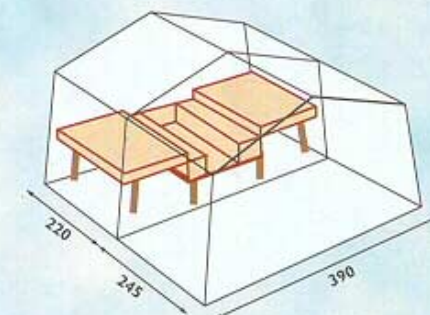

The permanently attached awning simplifies erection. The front wall may be rolled up for maximum ventilation on those hot summer days.

Attaching the optional sun canopy provides increased living area with minimal effort.

The Continental DL benefits from the same kitchen as the rest of our range and makes preparing food a pleasure whilst on holiday.

Supplied as standard with:

Removable mattress covers, fully carpeted with built in storage lockers and drawers, ventilated inner tents, roof linings, underbed storage facility, reinforced mud flaps, high mud wall, roll up front and side panels, split kitchen worktops and fully galvanised chassis.

The Mirage

For a vision of perfection

The colours of the Mirage have been carefully chosen to co-ordinate perfectly with the environment and will be sure to draw admiring glances from fellow campers.

The Mirage sidewalls may be rolled up without removing the curtains. The kitchen fits neatly next to the vented compartment, which may be utilised, as either a toilet or wardrobe. The seat cushions have been cleverly designed to transform the beds into king size and add to the Conway standard of luxury.

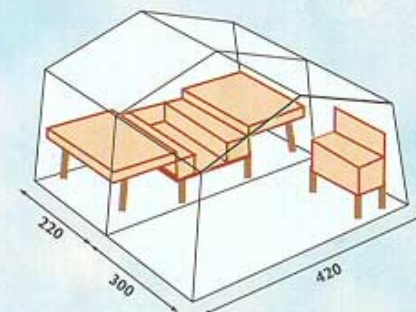

The optional sun canopy may be added with or without sidewalls to transform the Mirage into the envy of the campsite.

For the family that requires additional space or for extended holidays, the 1m extension zips in between the cabin and the awning. This optional accessory also incorporates a compartment that may be used as an additional wardrobe or toilet.

Trailer Tents

Supplied as standard with:

Removable mattress/seat covers, ventilated wardrobe/ toilet compartment, fully carpeted with built in storage lockers and drawers, ventilated inner tents, roof linings, underbed storage facility, reinforced mud flaps, high mud wall, roll up front and side panels, split kitchen worktops and fully galvanised chassis.

The Classic

A trailer tent with Classic form and innovative design

Trailer Tents

The largest trailer tent in the Conway range, the Classic has an impressive living area of 17.6 square metres (or almost 190 square feet).

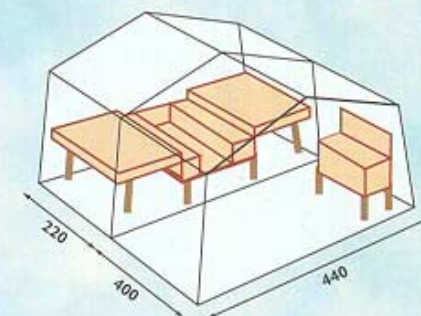

The cabin wall is fitted with stylish mesh windows to assist ventilation at night whilst preventing uninvited insects to dinner.

The Classic has a side wall extension providing additional space for a kitchen and a toilet/ wardrobe compartment.

The configuration shown here has half the front wall moved back to its rear position and the optional dividing wall zipped in to give the feature of a front "porch" to store those wet wellies or coats following a downpour.

Both halves of the front wall may be moved back to their rear position to provide a built in sun canopy with sidewalls for the perfect weekend set up.

Supplied as standard with:

Removable mattress/seat covers, ventilated wardrobe/ toilet compartment, fully carpeted with built in storage lockers and drawers, ventilated inner tents, roof linings, underbed storage facility, reinforced mud flaps, high mud wall, zip out front panels with veranda capability, split kitchen worktops and fully galvanised chassis.

The Conquest

Ideal for the "family on the move"

Trailer Tents

The Conquest is the first trailer tent to have a lockable hard roof and the patented G.L.S (Gas Assisted Lifting System). Simply slide the beds open, lock the roof in place and the spacious cabin is ready to be pegged! The optional 1.3m annexe extends the living area of the Conquest by a further 5.85 square metres (almost 63 square feet) ideal for those extended holidays or the larger family.

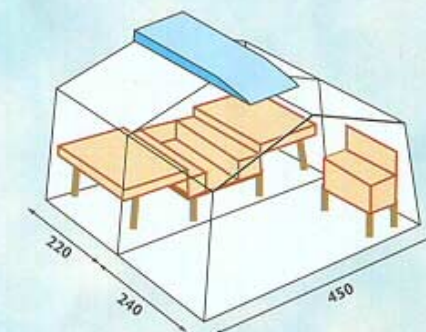

The Conquest cabin alone can be quickly erected for a weekend or overnight stop with the hard roof forming a useful canopy.

The king sized bed, internally opening windows, comfortable seats and a kitchen which can be used in the cabin on an overnight stop, all add up to set this unit apart from the competition.

The portable cooker unit may be used in the kitchen housing and sited in the spacious awning.

Supplied as standard with:

Lockable hard roof, internal kitchen position, removable mattress/ seat covers, fully carpeted with built in storage lockers and drawers, ventilated inner tents, roof linings, underbed storage facility, reinforced mud flaps, high mud wall, zip out front panels, brakes, corner steadies, split kitchen worktops, and fully galvanised chassis.

The Challenger

Designed for the smaller family

- Compact towing size extremely lightweight.
- Built in settee with a backrest you can adjust for full neck support or you can convert it into another double bed to accommodate guests.
- Stylish side mouldings easy to wipe clean.
- Extremely roomy cabin.
- Front mounted fridge carry box.
- Optional 1 metre awning extension.

Supplied as standard with:

Auto reverse brakes, wind down corner steadies, underslung spare wheel, 12v water system with tap, fully connected kitchen unit, table, fire extinguisher, 12v socket.

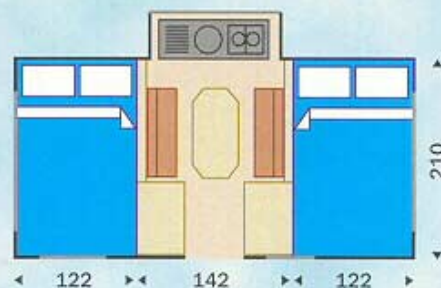

The Countryman II

All the comforts of home in a compact trailer

- Built in fridge that works on either gas, 12v or mains
- Front moulding for gas bottle storage
- Comfortable internal seating
- Fresh modern interior colour scheme
- Underbed tents may be fitted to provide further bedrooms or extra storage as required.
- Has a lot of features only associated with larger folding campers and yet is only 5 feet wide so is easy to tow, handle and store.
- Has a useful side shelf for all your kitchen bits with the added advantage that there is a powerful light.
- The new 'smooth line' sides enable you to easily wipe clean the trailer.

Supplied as standard with:

Galvanised chassis, auto reverse brakes, wind down corner steadies, fire extinguisher, underslung spare wheel, wheel trims, fully connected kitchen unit, dinette seating, table, 12v water system with tap.

The envy of our competition. The patented Connaumatic system means that simply sliding the beds open erects the unit simultaneously whilst the canvas remains permanently secured to the body. The reverse procedure ensures that the beds completely seal off the trailer's interior thus giving full protection from any damp canvas

The Cruiser

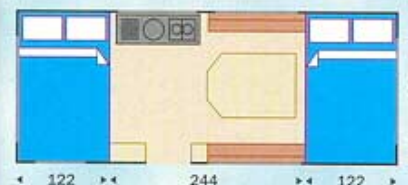

Plain sailing with the quickest and easiest to erect camper today

Folding Campers

- Front moulding which is capable of housing 2 x 7 kg. Gas bottles; reducing the number of bottle changes during a holiday.
- A unique kitchen, which pivots easily into place and gives you more storage space when packed down.
- Fitted fridge that runs on gas, 12v or mains.
- A rear cupboard door cleverly hinges into position to become a handy occasional table if the main table (supplied as standard) is being used in the awning.
- The Cruiser comes fitted with 'Triple Electrics'. This means that you can use the pre-wired 12v system (using an auxiliary battery) or, you can use mains electrics (if available on site). If you are using the latter then your battery will automatically be topped up from the systems built in charging facility.
- The Cruiser comes with a built in battery box with external access for easy battery removal and replacement.
- Optional built in hot water and 'Truma' blown air heating system.

Supplied as standard with:

Fully sprung mattresses, a galvanised full perimeter chassis, auto reverse brakes, wind down corner steadies, underslung spare wheel, wheel trims, generously sized 6'4" beds, a fully connected kitchen unit with side shelf, dinette seating, internal opening bedroom ventilation, wardrobe, fire extinguisher, 2 x 12v sockets, 2 x mains sockets, roll up face wall, 12v water system with tap, 'smooth line' sides.

The Crusader

All the comforts of home

Folding Campers

- The fridge and toilet compartment have been carefully designed to vent to the exterior of the unit and not into your awning space.
- Triple burner hob with smoked glass protector lid, which hinges easily into its storage position.
- The enamelled sink is colour co-ordinated to the cooker just like home.
- The new toilet compartment has a wash hand basin, which can be easily removed for cleaning.
- As with the Cruiser and Clubman "Triple Electrics" are fitted as standard along with the new battery box.
- A wall shelf is supplied as standard with built in lighting capable of illuminating the whole cabin.
- The Crusader has floor floodlighting for night use.
- A rear cupboard door cleverly hinges into position to become a handy occasional table if the main table (supplied as standard) is being used in the awning.
- The Crusader has a wine rack for that 'holiday tittle'.
- Optional built in oven, hot water and 'Truma' blown air heating.

Supplied as standard with:

Fully sprung mattresses, a galvanised full perimeter chassis, auto reverse brakes, wind down corner steadies, underslung spare wheel, wheel trims, generously sized 6'4" beds, a fully connected kitchen unit, dinette seating, internal opening bedroom ventilation, fire extinguisher, 2 x 12v sockets, 2 x mains sockets, roll up face wall, 12v water system with tap, 'smooth line' sides.

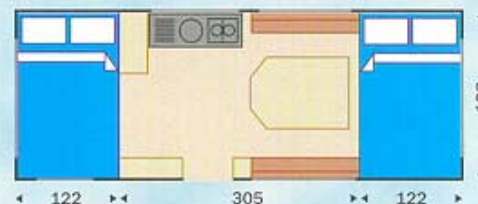

The Clubman

The ultimate in folding campers

- The Clubman has a hard roof, which can be locked down for security and is elevated by simply winding a handle.
- Triple burner hob with smoked glass protector lid, which hinges easily into its storage position.
- The enamelled sink is colour co-ordinated to the cooker just like home.
- The new toilet compartment has a wash hand basin, which can be easily removed for cleaning.
- As with the Cruiser and Crusader "Triple Electrics" are fitted as standard along with the new battery box
- A rear cupboard door cleverly hinges into position to become a handy occasional table if the main table (supplied as standard) is being used in the awning.
- The Clubman now has a wine rack for that 'holiday tittle'.
- Built in security box.
- A roof shelf is supplied as standard
- Optional built in oven, hot water and 'Truma' blown air heating.

Supplied as standard with:

Slide out beds, wardrobe, fully sprung mattresses, a galvanised full perimeter chassis, auto reverse brakes, wind down corner steadies, underslung spare wheel, wheel trims, a fully connected kitchen unit with roof shelf, dinette seating, internal opening bedroom ventilation, 'smooth line' sides, roll up face wall, fire extinguisher, 2 x 12v sockets, 2 x mains sockets, 12v water system with tap, floor lighting.
