

FOLDING CAMPER ERECTING INSTRUCTIONS - CHALLENGER ERECTING INSTRUCTIONS

The following instructions are intended as a step-by-step guide to help you erect your Conway unit. Please read your owners manual thoroughly where you will find other helpful information within the section on pitching.

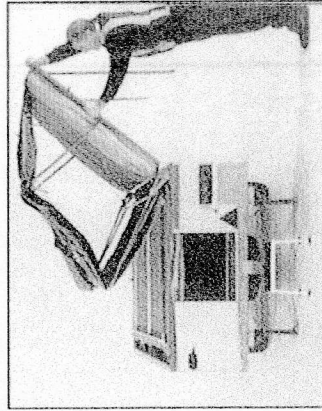

- Main Cabin 1-16
- Awning Instructions 17-22
- Sun Canopy Instructions 23-28

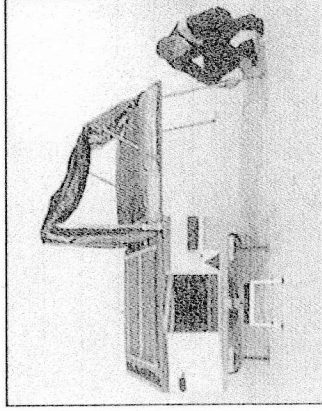

1. Apply handbrake and level trailer by means of jockey wheel.

2. Remove waterproof cover. Open rear door, take out winding handle, lower four corner steadies.
NOTE: Corner steadies should not be used as jacks to level trailer.

3. Lift over the top bed board and ensure that the legs hinge correctly to ground.
Note: 2002 models have bed lever arms fitted to assist with opening and folding.

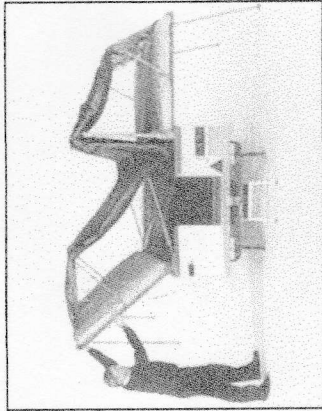

4. Adjust height of bed legs if necessary to level bed.

5. Repeat operation for second bed board and level if necessary.

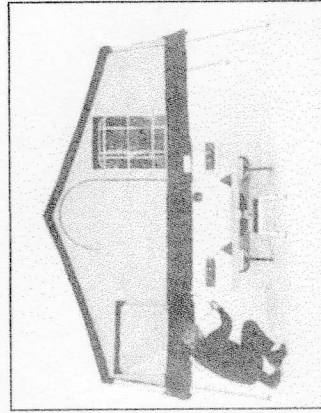

6. Release left and right hand centre "A" frame parts from rubber retaining bands and button clip together at the centre.

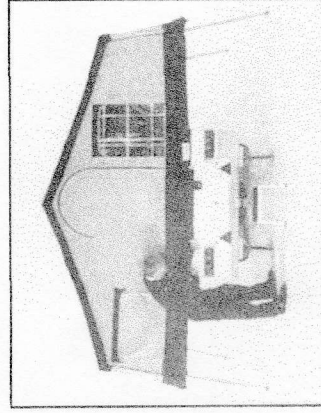

7. Pull canvas down from the roof at the front of the trailer. Open the door zip at the rear of the trailer.

8. Step inside the trailer, push out bed end supports to first button clip and repeat for the central support uprights back and front.

9. Close trailer and canvas doors. Pull canvas over bed ends and hook elasticated canvas sides to cleats located under bed board.

10. Attach velcro strip at the front and back of the tent to plastic moulding fastened to trailer body. Step back inside the trailer and adjust bed end and roof support poles as necessary to tension canvas.

11. Hinge over kitchen unit, locating sink outlet in base. Connections for gas, water and drain outlet at front of the trailer by the drawbar.

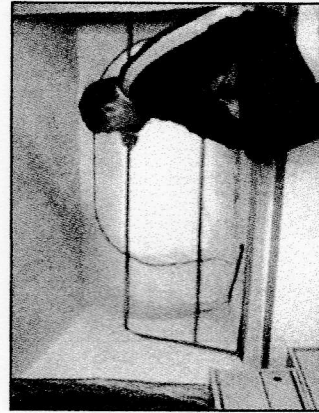

12. Unscrew locking screws at both sides of the kitchen unit. Lift up one side of the kitchen top section as shown.

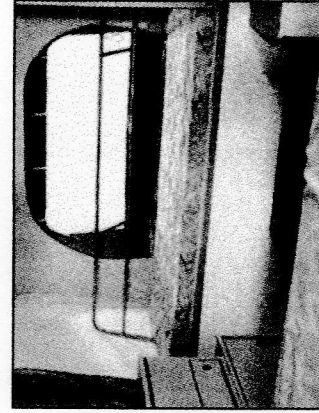

13. Lift up other side and refix locking screws to secure kitchen top section to base unit.

14. Unclip waterproof protective cover from mattress and roll back, unbuckle webbing mattress retaining straps. Fit left hand inner tent and separate roof liner by hooking to roof poles.

15. Fit right hand inner tent ensuring back rest support poles fit through slot in base of inner tent, extend frame and then hinge down flat and fit mattresses for use as a bed.

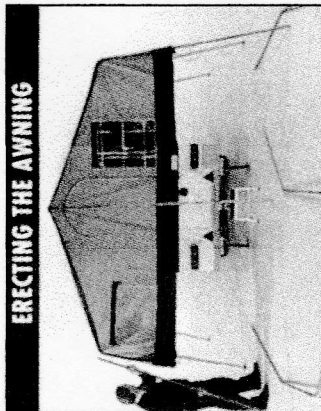

16. To convert right hand bed to a bench seat, hinge up back-rest support frame and lower top bar to short position. Fit the two support poles in brackets on the bed board and clip to bar. Reverse procedure to fold down.

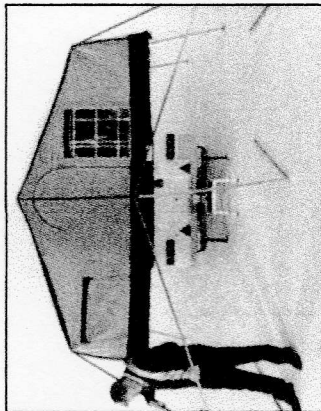

CHALLENGER AWNING INSTRUCTIONS

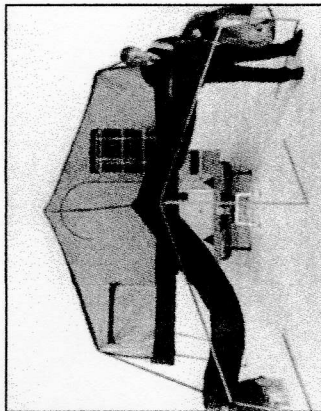

Freedom for Life

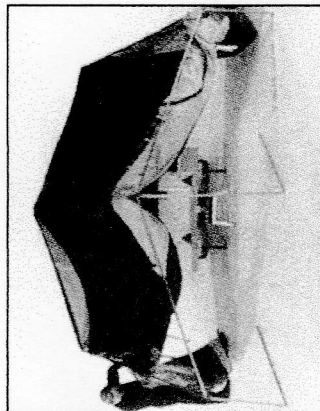

17. Take awning frame from bag and layout flat as shown. Assemble front "A" frame and hook in three roof support poles to main cabin.

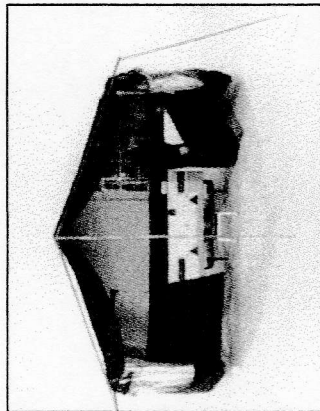

18. Fit front "A" frame with legs 'broken' and connect to centre roof pole then connect two side roof poles to front frame.

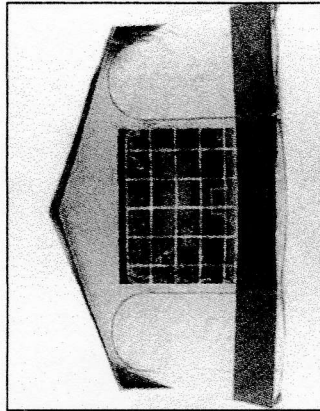

19. Take canvas from bag and lay out over roof poles.

20. Pull canvas up roof poles and zip awning canvas to main cabin canvas, ensure canvas zip cover is pulled over zip.

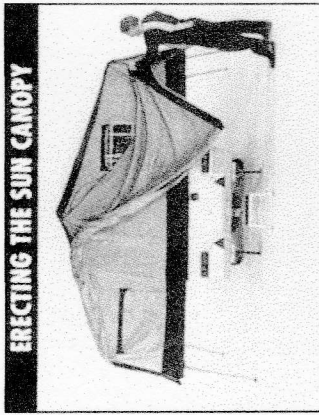

21. Lift front frame to full height, zip on awning skirt and fit draught skirt.

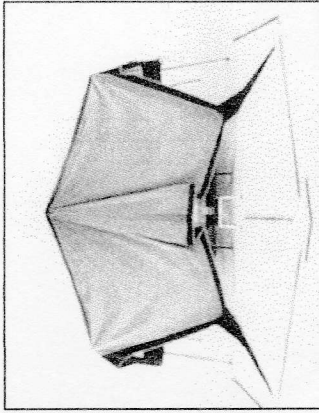

22. Pull canvas over front frame, fit stub canopy poles then tension roof poles, peg out canvas, remembering to peg out elasticated zip cover.

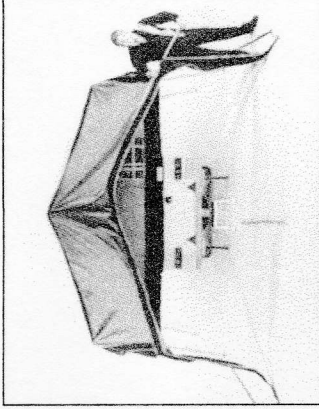

CHALLENGER SUN CANOPY INSTRUCTIONS

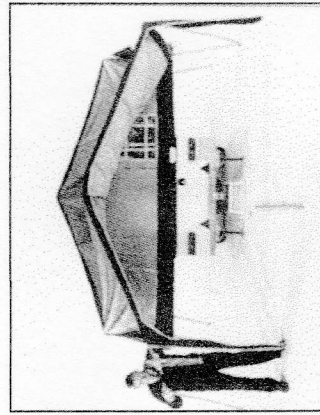

23. Zip on sun canopy to main cabin canvas and let canvas hang down over door way.

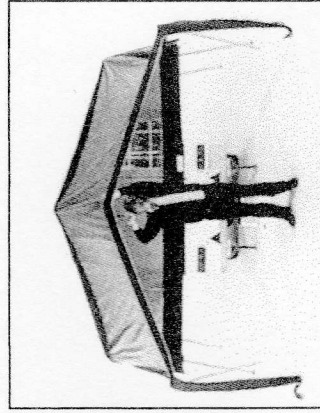

24. Lay out canopy frame as shown.

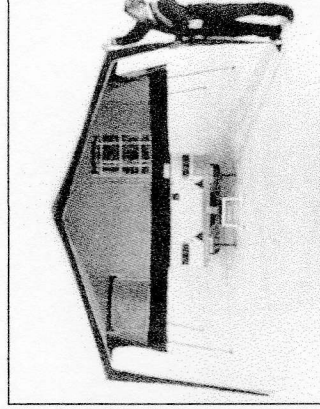

25. Connect centre apex pole to side apex poles and feed through sleeve at front of canopy.

26. Connect adjustable legs to apex poles.

27. Hook in centre roof pole to cabin frame, fit spike end into centre apex pole and tension.

28. Ensure eyelets are over spiked corners, peg canvas and guy out from spikes.
