# CONWAY CAPRI ERECTION INSTRUCTIONS

Fig. 1

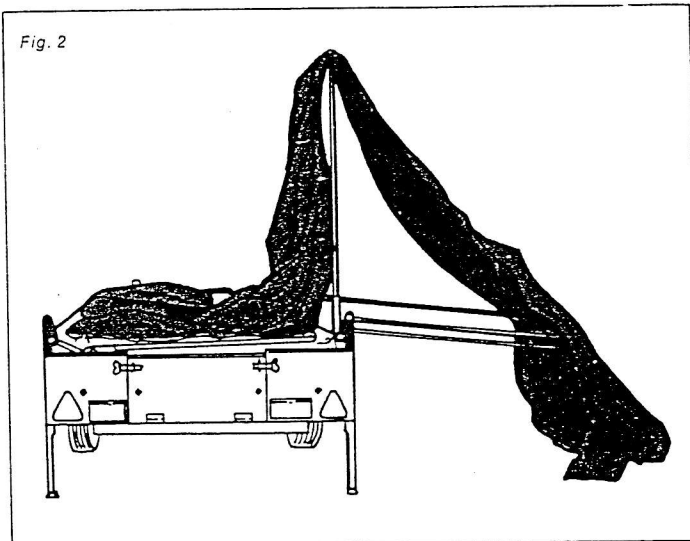

1. Unhitch trailer from car. Position on as level ground as possible. Drop down the 4 Corner Jack Legs.

2. Remove cover.

3. Lift over right hand and centre frame taking the strain on centre frame. See Fig 2.

Fig. 2

4. Lift over left hand frame and locate button clip in hinged arm in centre hole of securing arm. See Fig 3.

5. Extend all three roof frames.

6. Lift over bed board and mattresses. See Fig 4.

7. Release elastic retaining straps and clip inner tent to frame.

Fig. 3

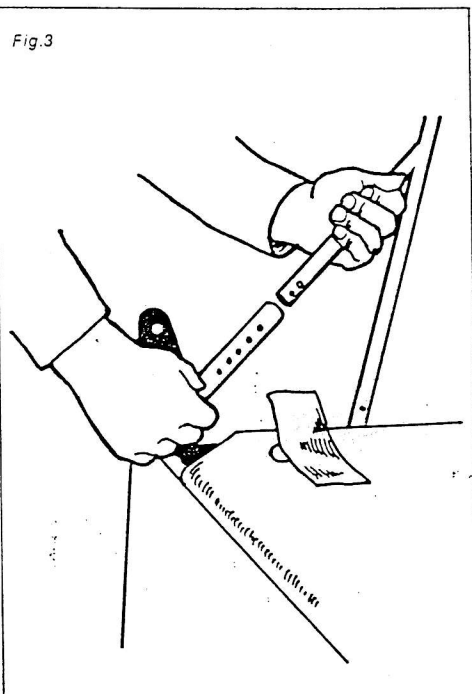

Fig 4

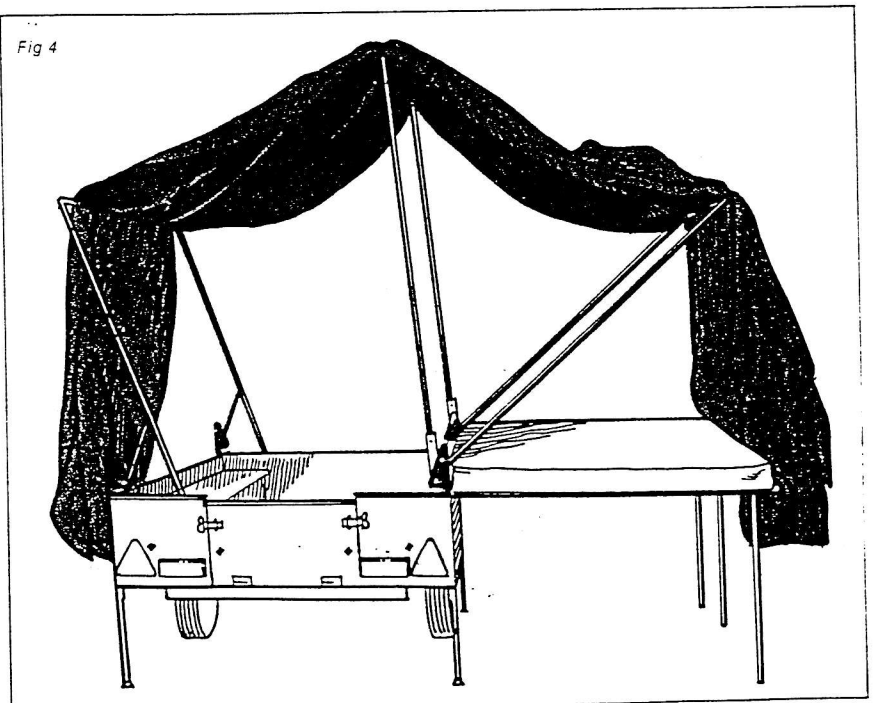

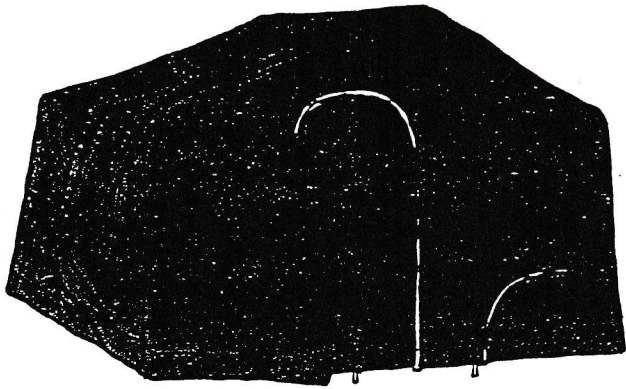

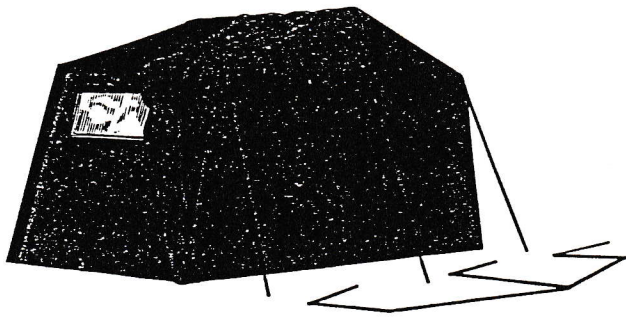

Fig.5

8. Pull cabin walls down from roof of trailer.
9. Adjust cabin frame as necessary. Ensure that left and right hand roof frames are equal distances from the ground. See Fig 5.
10. Peg out with all zips closed in the following sequence.
  - (i) Back corners, ensure towbar gusset is in correct position.
  - (ii) Front corners.
  - (iii) All intermediate points.

Fig. 6

### Conway Popular Extension

1. Attach to cabin by means of zips.
2. Throw extension canvas back over roof of cabin.
3. Remove extension frame from bag.
4. Extend extension roof poles to approximately two-thirds their length. Locate hooks of 2 outside roof poles, but not centre one.
5. Connect remainder of extension frame, but leave bottom section of each leg loose. (See Figure 6.)
6. Connect centre roof pole to apex of extension frame, and then locate spike in cabin frame.
7. Attach 2 side roof poles to front frame. (See Figure 7.)
8. Pull forward extension canvas and locate over spikes. (See Figure 8.)
9. Lift extension frame to correct height, and tension roof poles correctly.
10. Peg out with all zips closed. (See Figure 9.)
