

CAPRI & CALYPSO

Step by step instructions for simple erecting.

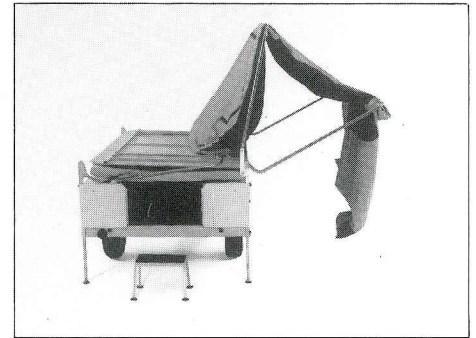

To fold down, reverse procedure.

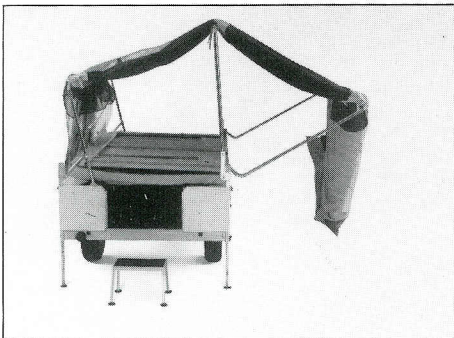

1 Level trailer, drop jack legs, remove cover.

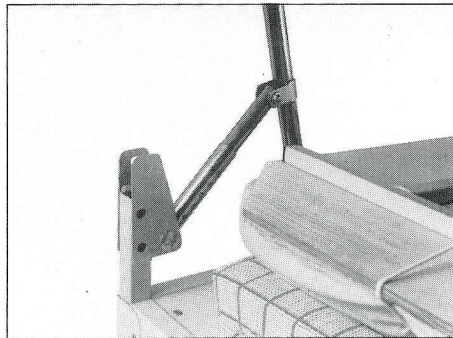

2 Drop the four kitchen support legs to within 1/2" off the ground, release the two protex fasteners. Disconnect the 7 pin plug before removing the kitchen from the slide support rails.

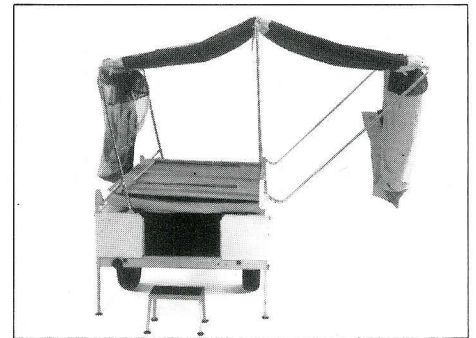

3 Swing over right hand cabin roof support frames.

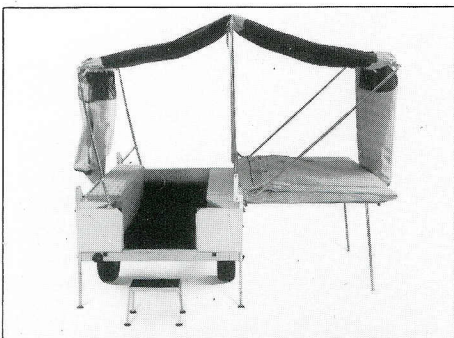

4 Swing over left hand support frame.

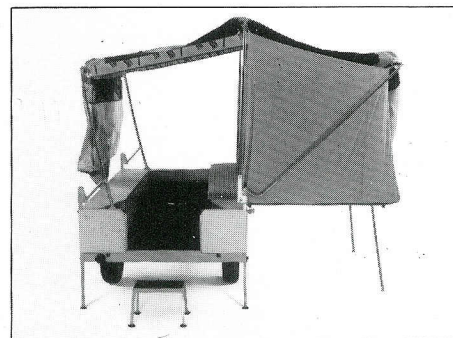

5 Locate button clip on hinged arm.

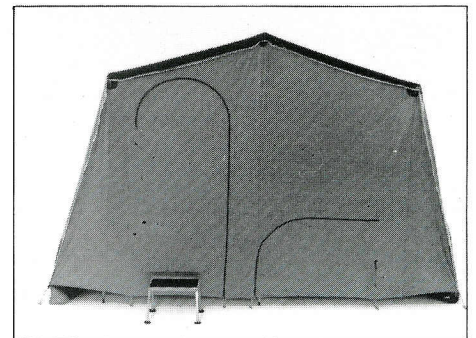

6 Extend three roof support frames, locating button clip on middle hole.

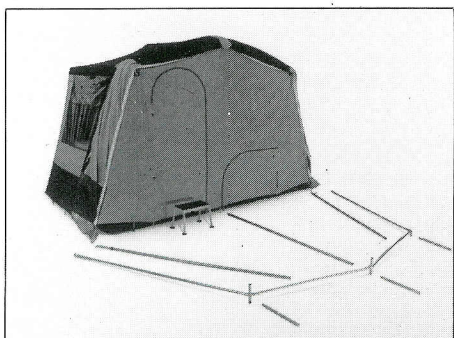

7 Lift over bed board and mattress.

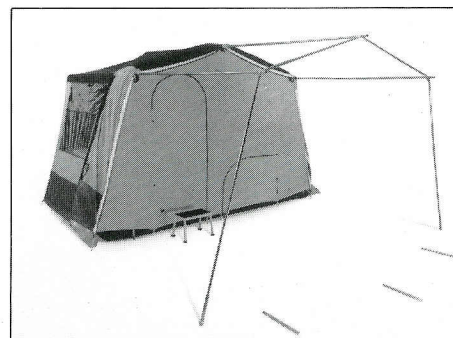

8 Clip inner tent to framework.

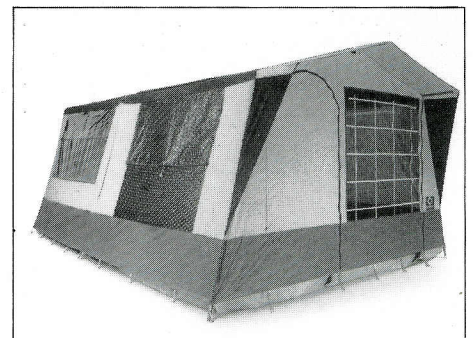

9 Pull canvas down. If using as overnight stop without extensions, close door zip and peg out.

10 Zip on extension canvas and fold back over main body. Lay out extension frame.

11 Hook roof support poles to main body frame and build up extension frame.

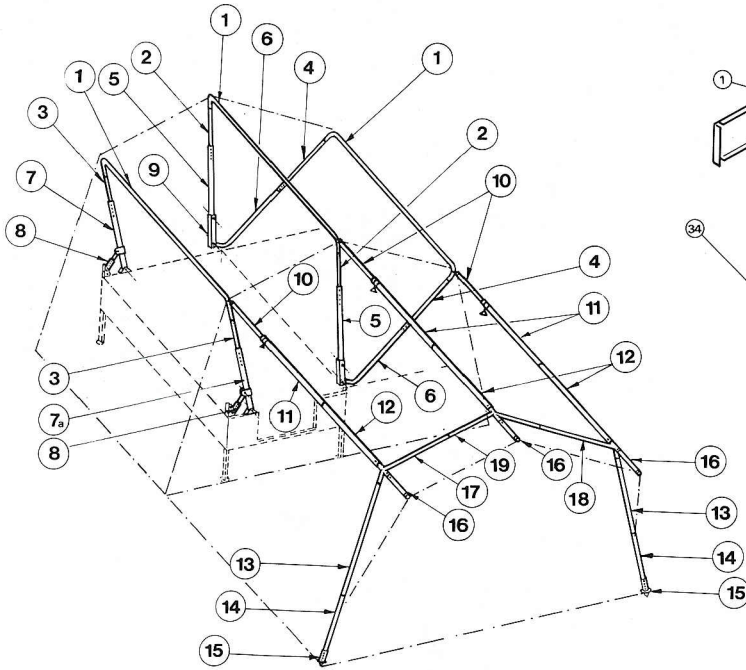

12 Pull over extension canvas and fit stub canopy poles, then tension the frame.
