

FLEXi[®]
TENT & TRAILER

>> FLEXI CAMPING <<

DESIGNED FOR FAMILIES...

Designed for families looking for a lot of beds and taking along loads of stuff. The FLEXI has 6 beds and a huge luggage space of 1200 liters (250 gallons). During wintertime, the trailer can

serve as transporter for chopping wood etc. With a tare weight of 400 kg (880 pounds) the trailer is extremely light, which also goes for the investment needed.

ALL YEAR ROUND...

The looks of the tent are unmistakable Combi-Camp, but the Flexi is a completely new addition to the product range. Typical Combi-Camp is the all-in-one concept. The difference lies in the way you can add or leave out the different modules:

- X Luggagetrailer
- X Tenttrailer
- X Transporter

The modular platform of the Flexi can be used all year round.

» ALL-IN-ONES «

what you always get

- X 250 gallons luggage space
- X Packing / unpacking with tent folded up
- X Dismountable tent-unit
- X Automatic awning
- X Windshields on both sides
- X Two double bedspring beds
- X Luggage room / childrens tent
- X Windows in sleeping cabins
- X Braked axle

- ✗ Floorsheet in awning
- ✗ Bullbars
- ✗ Aluminium wheels
- ✗ Black wheelcases
- ✗ Organizer
- ✗ Extra sleeping cabin

FLExi[®]
TENT & TRAILER

>> ALL-ROUND
VIEW! <<

LIGHT-WEIGHT AND EASY TO MAINTAIN

The tent is comfortable thanks to the use of material and ventilation possibilities. Even when it rains, you have an all-round view, even from your bed.

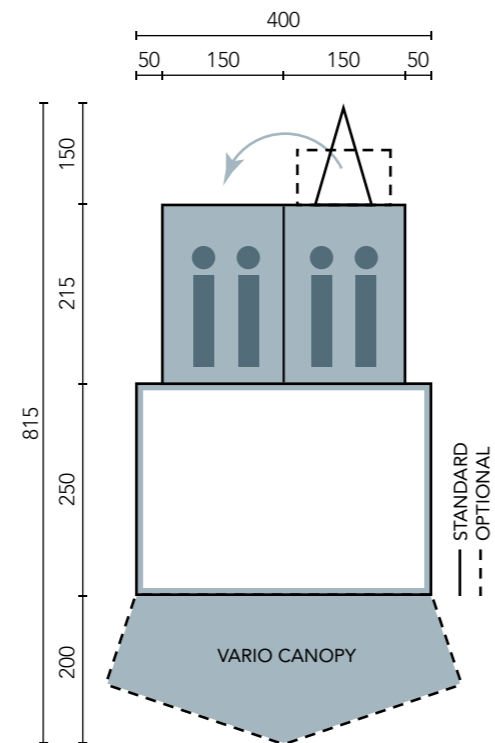

The trailer is light-weight and easy to maintain, consisting of aluminium sandwich panels. The bottom is made of 15 mm laminated wood, so fit to carry more than just your camping gear.
