Welcome to Pennine

The leader in folding campers

Pennine Leisure have been at the pinnacle of the folding camper market for over twenty five years. The reputation which is associated with the Pennine brand has been hard-earned through development and innovation complimented by the use of only the best quality materials.

Built by campers, for campers, our latest range offers a specification to fill each sector of the folding camper market.

We incorporate all the features of a conventional touring caravan, but benefit from the advantages of lightweight construction, better visibility when towing and easier storage.

Little wonder that our market is ever increasing with customers realising that folding campers are the answer to their camping & caravanning prayers!

The unique Penn-Matic system introduces gas strut technology across the range, enabling the camper to be opened and closed with the minimum of effort. Yet another example of Pennine superior performance.

Fiesta

The Pennine Fiesta

Versatile four berth camper

Narrower and lighter than most other campers on the market, the luxurious Fiesta offers all the benefits of a small camper, combined with many of the features associated with a larger touring caravan.

Ideally suited to the smaller family, this trailer now benefits from the revolutionary Penn-Matic opening system which has been proven for many years on our Pullman and Pathfinder models.

The two plus two design allows the left hand seating area to be converted into a second double bed in seconds.

Standard features of mains electrics, three-way refrigerator, kitchen shelf unit complete with lighting and caravan style kitchen unit combine to make this a very affordable camping luxury!

The Pennine Sterling

Exceptional value six berth camper

The six berth Sterling was originally designed to fulfil the need for a budget six berth camper in the folding camper market. Careful planning and design innovation ensures that all available space is optimised without compromising on storage facilities or specification. The budget price of the Sterling belies the range of features which it accommodates. Mains electrics, three way refrigerator and caravan style kitchen unit are just a few of the features which this camper boasts!

The Sterling appeals to all sorts of campers, being well equipped, not overburdened with frills, lighter than most of it's competitors and consequently towable by a variety of standard family saloon cars.

The new design of this camper also incorporates the revolutionary Penn-Matic opening system, making the start of your camping holiday a much easier affair.

Sterling

Pullman

The Pennine Pullman

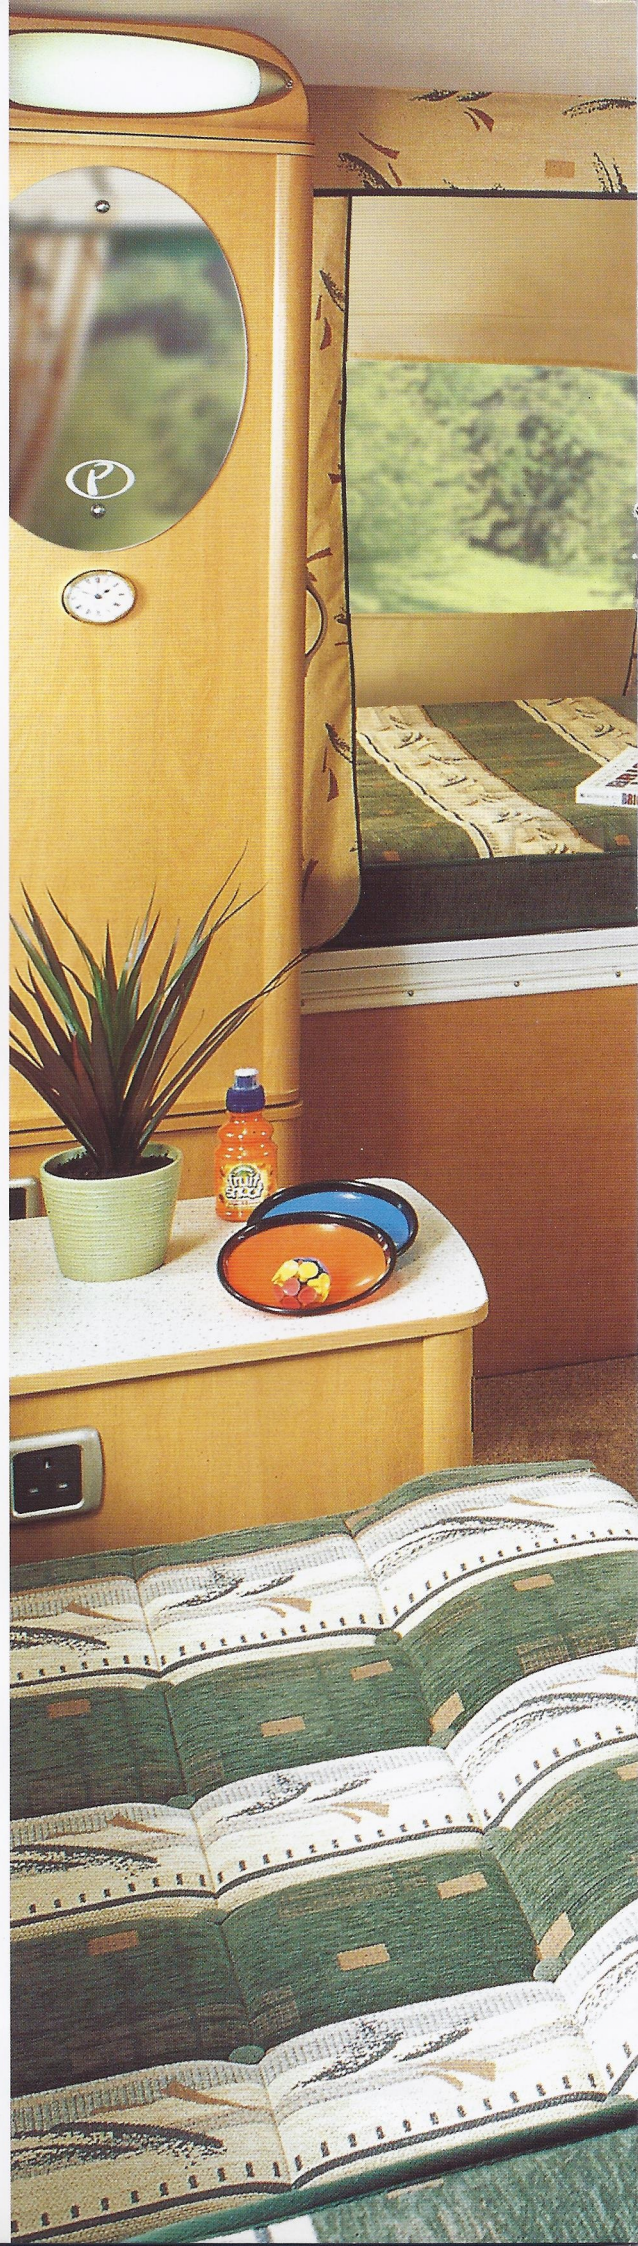

Luxurious six berth camper with a pedigree

The ever popular Pennine Pullman incorporates an indefinable mix of quality and traditional appeal that has proved to be so elusive to others. This has been the foundation for the Pullman's continued success for many years.

This six berth camper appeals to many, due to it's refined luxury and list of features, which include king-size front bed, enamelled hob, stainless steel sink unit, mains electrics, three-way refrigerator and now the added benefit of hot water.

Luxury and practicality combined have made this camper the envy of the competition and again, the lightweight construction provides the benefit of easy towing with most standard saloon cars.

As you can see, this years design emphasis has been on more features, more value and more luxury and we hope that you will agree that we have managed to achieve all three!

The Pennine Pathfinder

The ultimate beautifully crafted six berth camper

Top of the range camping luxury, at an affordable price is the achievement of our highest specification camper.

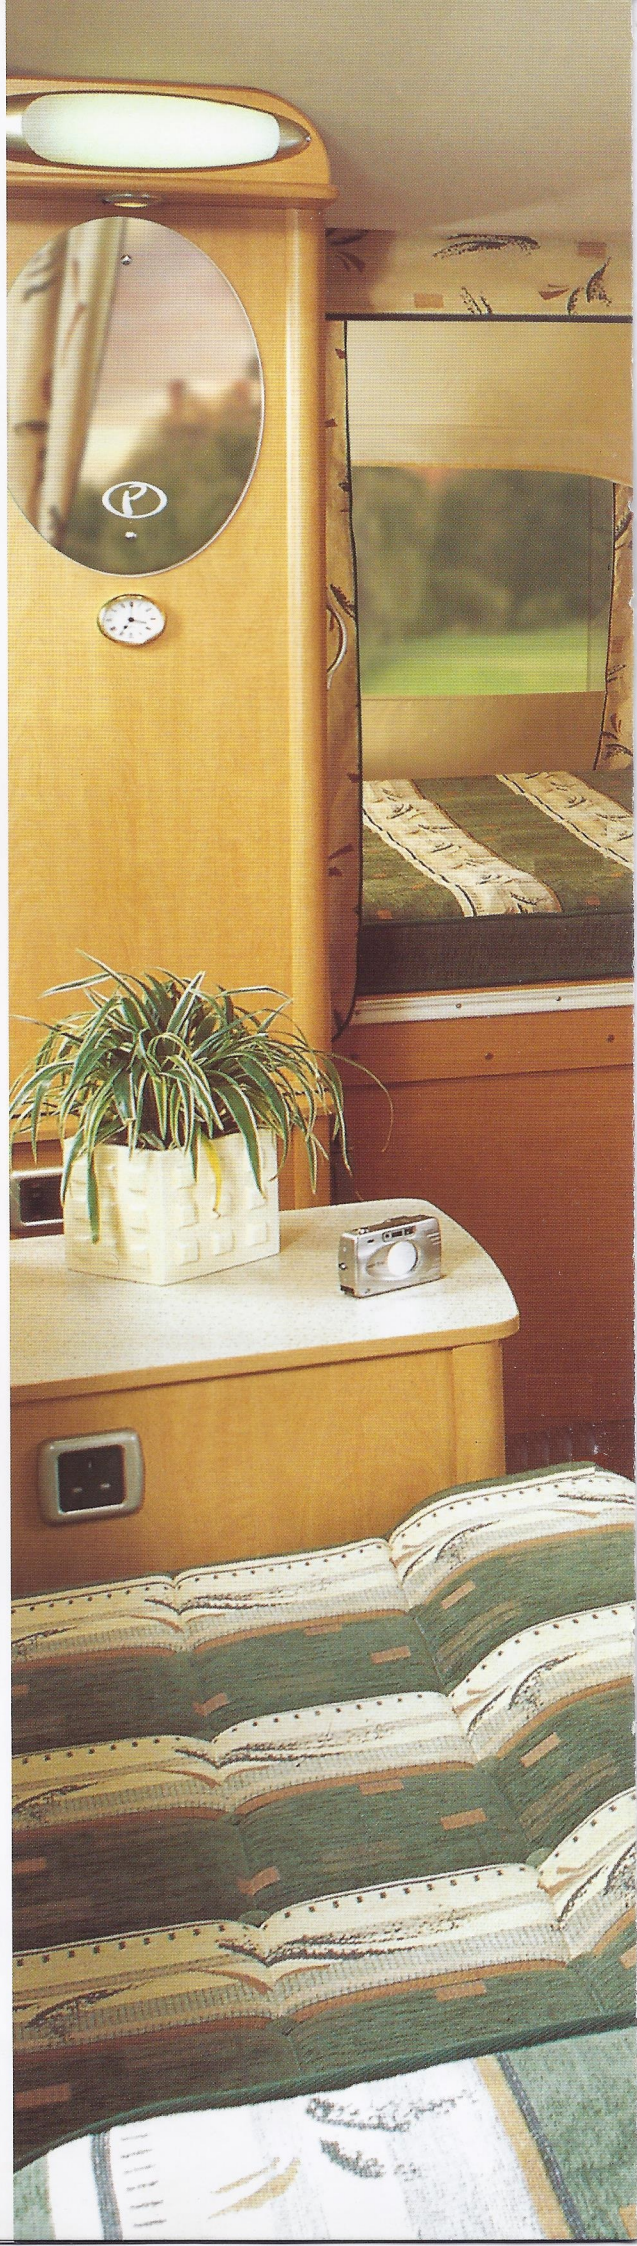

Standard equipment such as mains electrics, three-way refrigerator, water heater and electric flush toilet are just a few of the features which we have managed to incorporate. Three double beds including one king-size, conventional oven, hob and sink unit are also provided as standard to complete the refinements within the Pathfinder.

New "smooth-line" side panels are now complimented by a new ABS plastic rear panel. This in turn incorporates innovative and stylish lighting combining aesthetics with functionality.

The Pear finish woodwork is enhanced by the luxurious soft furnishings and carefully chosen fabrics to complete the beautifully appointed Pennine Pathfinder!

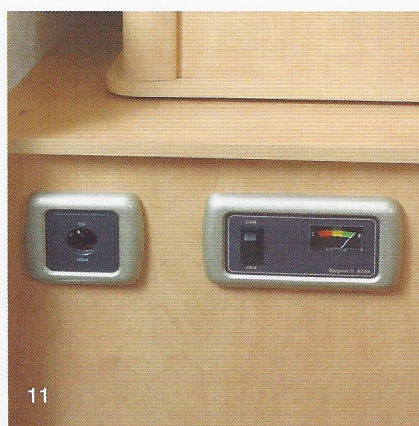

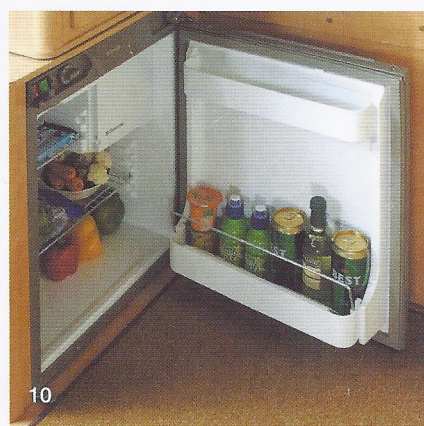

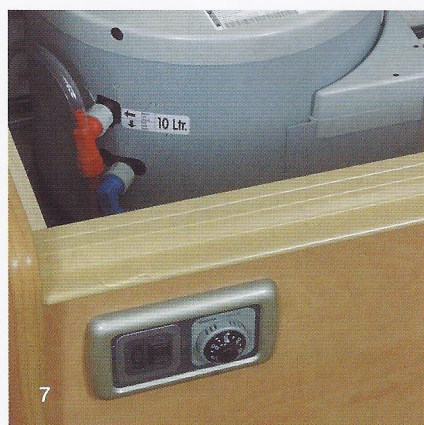

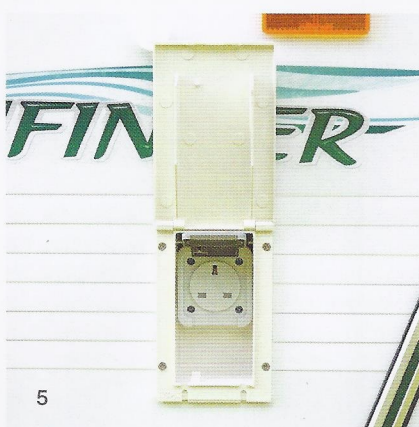

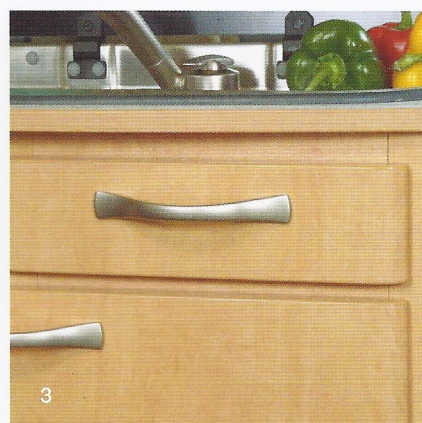

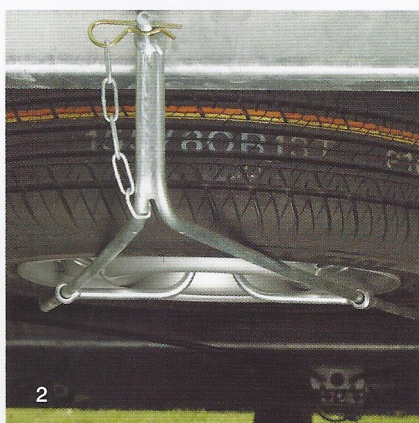

Pathfinder
