NEW PRODUCTS 2013

Do you already know our products? Here is the list of the major improvements for 2013:

The kitchen unit of the Odyssee and Olympe models can now be fitted with casters for easier movement. These castors can also be used on the kitchen units belonging to these two models from previous years.

Opening the Olympe model is easier with a jacking system that significantly reduces the weight of the beds. Like last year, the Olympe can be equipped with a third central bedroom, becoming the only trailer tent on the market with three actual bedrooms.

The Alpha model 2013 has been reworked, with new colours and an awning that is easier to assemble. The Galleon remains unchanged, like the Odyssee which retains its magnificent skylight.

At the request of many customers, the sun canopies of the family models can now be adjusted on the sides.

1 Ease of towing

Once closed, a Trigano trailer tent is the size of trailer. It can be towed by any car, even the smallest; it offers almost no wind resistance and does not result in additional cost at motorway toll booths. Its winter storage is also simple.

2

2 Available space

Choosing the trailer tent is choosing to have room on vacation. Our 2013 models offer sizes ranging from almost 19m² to over 26m² as standard, and can be expanded with sun canopies or annexes.

3

3 Watertightness and breathability

We cut and sew our own canvases, using only high quality cotton in 280 g/m² and 340 g/m² weights. Entirely waterproof, the Trigano canvas has an average lifetime of over 20 years, and cotton means you can breathe perfectly in all weather conditions: it lets air in, and keeps water out.

4 Storage space

We know you take a lot of luggage with you on holiday. All our models are equipped with storage space for their easy transport. In addition, optional equipment such as the towbar storage box or the luggage rack means you can carry specific equipment (bikes, fridge ...).

5 Ground sheet

Popular with our customers, these mats are connected to the awning by a zip-in ground sheet positioned about 10 cm above the ground. The mats protect you from moisture and insects, and also prevent wind passing underneath the awning. You can remove them or put them back at any time.

6 Sleeping comfort

Sleep as well as at home! The bedrooms are made of cotton tents that double the main canvas, and are equipped with mosquito nets and flaps. The mattresses are wide and comfortable, and slatted bases are available on most models. All our models offer two separate bedrooms (except the Alpha) and it is possible to add more sleeping places (underbed tents, annexes)

7 Kitchen unit

All models are available with or without kitchen units. These units are fixed to the back of your trailer tent and provide all the space and equipment you need. They are transportable for cooking outside your awning in good weather (except the fixed kitchen unit of the Alpha model). The kitchens of the Odyssey and Olympe models can be equipped with casters.

BENEFITS

Value for money

One of the very best on the market without compromising on quality.

Your choice of equipment

With or without brakes, with or without kitchen unit: in your Galleon it's you who decides on your equipment.

Easy assembly

Two possibilities: use only the bedrooms and the cabin, which takes three minutes, or assemble the awning as well. It is very simple, as you can see at www.trigano-trailertents.com.

Choice of colours

Choose according to your personal preferences between a beige and blue version with a dash of red, and a white and blue version.

Do you go on family camping trips? Then the Galleon trailer tent is designed for you!

By day, enjoy the space that you have inside an awning more than 3 meters deep. Your things will easily find a place in the many pockets and storage compartments.

At night, you will love the comfort of these bedrooms that are fully equipped (tents, mosquito nets, flaps ...) and separated by a central cabin.

Finally, upon arrival at the camp-site, the ingenuity of its construction will surprise you: the cabin and rooms are ready in less than three minutes!

- 1 The front and side can be **opened**.
- 2 The white and blue version is **very luminous**.
- 3 The **optional sun canopy** further **expands** the Galleon. It can also be fixed directly onto the cabin.
- 4 These **power grips** fit onto the frame of the awning and make for an **easy installation**.

The Alpha, our top model, is designed for all couples who travel from place to place and stop when they feel like it. Enclosed by a solid cover and a large luggage rack, it is effortlessly opened in less than three minutes. Inside, its bed opens onto a wide storage space for easy access to your luggage. It is of course expandable thanks to an awning, sun canopy, or annex.

Whether for a weekend, vacation, or during retirement, choose Alpha and enjoy freedom while you travel.

- 1 This kitchen unit at the back of the Alpha is very well equipped and protected by a cover. (Version without kitchen available).
- 2 The modular awning can be completely closed or, on the contrary, used as a sun canopy. All windows have flaps and the door has a mosquito net.
- 3 Water and gas supplies are placed inside the front storage box and the connections towards the kitchen at the rear are pre-installed (on Alpha with kitchen).
- 4 This bedside power socket is very useful.
- 5 A rear annex is available, which can be equipped with a room.
